## PERMIT APPLICATION INSTRUCTIONS

1. Draw the following to scale on the lot outline using the largest scale possible:
  - A. Lot outline with dimensions
  - B. Existing and proposed buildings with distances to property lines
  - C. Distances between proposed buildings and existing building(s)
  - D. Street names, street addresses and alley identification
  - E. Driveways, pools storage buildings, etc. with dimensions
  - F. Survey markers or other legal property markers if known
2. Complete area calculations of existing and proposed buildings in items A-E for coverage (maximum 30%).
3. Size, type, area, height, location, setback, distance from lot lines and various other factors relating to buildings, structures and construction are controlled by the local zoning ordinance. Zoning approval must be obtained when permits are obtained and also for other matters related to zoning. Please consult the Code Officer for zoning ordinances.
